Preface

Dear Colleagues,

SPR has the pleasure of welcoming you to Madison, Wisconsin, for the 38th Annual Meeting of the Society for Psychotherapy Research.

The traditional annual meeting includes a scientific program with more than 320 presentations by researchers from more than 23 countries. In addition to the Presidential Address offered by Professor Erhard Mergenthaler, the program includes 2 Plenary Sessions, 55 Panels, 16 Paper Sessions, 9 Open Discussions, 5 Pre-Conference Workshops, a poster session with over 60 presentations, 5 business meetings, and a Memorial Panel paying tribute to the life and work of Hans Strupp. The breadth of presentations is increased by the active participations of CBT and family therapy researchers, as well as by having a track dedicated to cultural aspects of psychotherapy research. We have attempted to organize sessions thematically with similar topics scheduled during non-competing time slots based on the key words provided by the authors. There will be no more than 8 parallel sessions.

You will find a first author index, a topic index and various maps and plans in the back of the program. There will be notes about the meeting posted at the registration area in case of cancellations or other variations from the printed program.

We look forward to a successful meeting with a rich, and lively interchange between presenters and participants. It is our hope that the program will encourage the advancement of knowledge and collaboration between those in attendance.

Greg Kolden (Chair Local Organizing Committee)
Bruce Wampold
Tracey Smith

Jacques P. Barber (Chair Program Council)
Anna Buchheim
Gary Diamond
